

New breed leaders join Select Sires lineups

Select Sires genetic offering continues to expand with the October release of five new Holstein sires and one Jersey sire. Among this group you will find breed leaders for many traits.

7HO8192 Halo DISCOVER-ET

DISCOVER ranks among the top-15 Outside sons for TPI™ at +1739. He writes an outstanding linear chart that is entirely to the right with a good balance of dairyness and strength. This HealthMark™ sire offers the complete package and is a great reflection of the breeding power of his cow family. The D family at Halo farm has produced great results in a large-herd commercial setting and DISCOVER is ready to carry on the family tradition through his daughters.

7HO8314 Far-O-La Throne SPORT-ET

SPORT is now available to offer a different sire stack with positive components and strong Type values. Sport is a Timlynn Throne-ET son from a phenomenal milk machine, Far-O-La Win Sable-ET (VG-88-DOM-GMD). The grandam is Regancrest Debbie-Jo-ET (EX-92-EX-MS-GMD-DOM). SPORT is positive for Productive Life at +1.5 and offers +0.6 Daughter Pregnancy Rate and a favorable 2.89 Somatic Cell Score. He couples this with a strong linear type pattern with an over all +3.04 Type value. SPORT debuts as a HealthMark and Herdlife Builder™ bull as well.

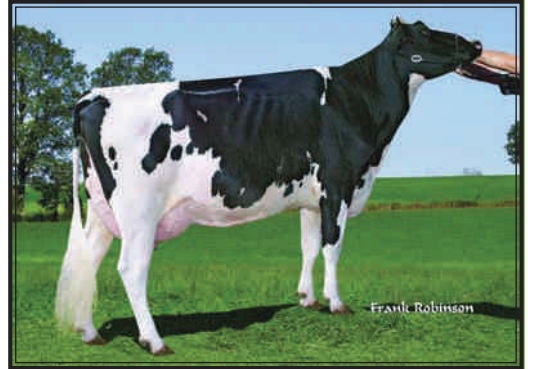

7HO8361 Kings-Ransom T DOMINGO-ET

DOMINGO is elite for TPI™ at +1885 as well as Net Merit at +\$575. He ranks #6 for TPI and #4 for NM\$ at Select Sires. DOMINGO provides another great source of outcross genetics for the Select Sires line-up to complement the “Big Three” of EMORY, DURHAM, and BW MARSHALL.

7JE778 Sunset Canyon Golden HARVEST

Harvest jumps on the scene as the highest Jersey Performance Index™ (JPI™) and PTA Milk CENTURION son in the breed, as well as the #5 bull in the breed for overall Type! His Type breakdowns impress as he is the #7 Jersey Udder Index™ (JUI™) bull. Harvest is very likely the Centurion son that all breeders have been looking for. Not only does he improve the type on the next generation, he can make the special one that everyone is looking for while increasing production with a PTA for milk of over +1,100. ★
